

Geography: KS3

Lye's Global Connections

Today we are connected to places all over the world through TV, media and the internet. Goods are traded around the world and people travel widely.

Using your history skills too, research the different trades and industries that Lye and The Black Country is famous for now and in the past. Can you uncover how far away items made here travelled and what they were used for?

For example, was iron forged in the area really used to help build the Eiffel Tower in Paris?

Name of Industry and items made	Where in the world are they connected to?

Can you mark these places on a class map.

Can you spot any other connections?
