## Histories in the Headstones

### Using cemeteries as source material

There are many ways that you can begin a research project on your local area. In what ways do you think cemeteries can be useful in researching your local area?

---

---

---

---

---

---

---

---

What different types of information can cemeteries provide?

---

---

---

---

---

---

---

---

Where could you go next to find out more information?

---

---

---

---

---

---

---

---

Choose a person from the cemetery and complete as much of this as you can:

<b>Last Name</b>			
<b>First Name</b>			
<b>Year of death</b>		<b>Month of death</b>	
<b>Year of birth</b>		<b>Age at death</b>	

Do you have any information from a Census return that you can add?

<b>Date of census</b>	
<b>Age at time of census</b>	
<b>Address</b>	
<b>Occupation</b>	
<b>Place of birth</b>	
<b>Married Y/N</b>	
<b>Number of children</b>	

Any other information:

---

---

---

From the evidence you have, what can this person's life tell you about life in the local area?

---

---

---

---
